

Candidates Certified by US State/Territory

Presented here are the total number of certificates and the number of currently valid certificates issued by the ABIM by US state/territory and discipline as of February 17, 2011. State/territory identification is based on the most recent address provided to the ABIM by the physician. The ABIM has limited contact with some diplomates. Therefore, the accuracy of many addresses is uncertain. These data are updated annually.

- The “Total” row identifies the total number of certificates issued, including certified internists/subspecialists known to be deceased and/or those whose certificates are no longer valid.
- The “Valid” row only includes certificates still considered valid and does not include certified internists/subspecialists known to be deceased.

Note that the number of certificates issued is not the number of certified internists/subspecialists practicing in each discipline listed.

*ABIM Diplomates Only

Number of Certificates Issued by US State/Territory and Discipline
