

Fall 2011 ABIM Cardiovascular Disease Electrocardiogram and Imaging Studies Exam Tutorial

Corrected Patient Descriptors

The patient descriptors found in the practice exam portion of the Electrocardiogram and Imaging Studies Exam Tutorial are not the correct ones associated with the images. The correct patient descriptors for each of the four Exam Tutorial questions are listed below.

We apologize for the confusion and are rectifying the situation.

Question Number	Patient Descriptor in Tutorial	Correct Patient Descriptor
Question 1: Electrocardiogram	A 64-year-old man in the ER because of chest pain.	A 51-year-old woman with fatigue.
Question 2: Echocardiogram	A 52-year-old man with dyspnea and fatigue.	A 43-year-old woman with fatigue and dyspnea.
Question 3: Ventriculogram- Aortogram	A 55-year-old man with chest pain and dyspnea.	A 74-year-old woman with chest pain.
Question 4: Angiogram	A 47-year-old woman who is being evaluated because of atypical chest pain.	A 50-year-old man who has chest pain with minimal exertion.
