

Suresh Nair, MD
Medical Oncologist
Member, ABIM Board of Directors and Council
Chair, ABIM Medical Oncology Board

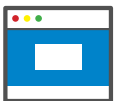

LONGITUDINAL KNOWLEDGE ASSESSMENT

Maintain board certification at a pace that works for you

What is the Longitudinal Knowledge Assessment?

By providing physicians with regular feedback on their performance, ABIM's Longitudinal Knowledge Assessment (LKA®) better integrates assessment and learning, helping you know and demonstrate you are keeping your medical knowledge current.

Key Features Include

No appointment necessary!

Once enrolled, just sign in to your ABIM Physician Portal to access your LKA dashboard and answer questions.

You start engaging in your assessment due year

Five minutes per question

With a bank of 30 extra minutes you can use each year if you need more time.

Access any resources used in practice

Except another person

Provides immediate feedback, rationales, references and quarterly progress reports

Earn 0.2 MOC points for each correct answer

Participation Requirement: 120 questions offered per year*

Open at least 500 out of 600 questions over 5 years

Performance Standard: Feedback relative to standard will be provided via quarterly progress reports; final score calculated at conclusion of 5-year cycle.

* Participation Requirement includes built-in flexibility to allow for life's circumstances, such as short-term medical issues, vacations, weddings, funerals, or other personal events.

Know and demonstrate you're keeping your medical knowledge current.

80,000

certificates are being
maintained using LKA

4^{OUT} 5

physicians are choosing
the LKA over the
traditional exam

<1^{HOUR}

on average is the
amount of time spent
per quarter answering
LKA questions

<2^{MIN}

on average is spent
on a question

The LKA isn't available in some specialties because there are fewer physicians maintaining certification in these highly specialized areas. In Cardiovascular Disease, Advanced Heart Failure and Transplant Cardiology, Clinical Cardiac Electrophysiology and Interventional Cardiology the ABIM/ACC Collaborative Maintenance Pathway is available. All diplomates will continue to have the traditional, 10-year MOC exam available.
