

# Maintenance of Certification AT A GLANCE

## How do I maintain my certification?

## What are my assessment options?

**Traditional, 10-Year MOC Exam**  
Take and pass every 10 years.

**Longitudinal Knowledge Assessment**  
Available in 17 specialties. Answer questions quarterly for five years.

**Collaborative Maintenance Pathway**  
Answer questions and pass annual assessment.

## How can I earn points?

You're already doing a lot to keep your medical knowledge current. Many of those activities are eligible for MOC points and can help you fulfill your MOC requirements. Here are a few ways how:

### Attend Society Meetings

Ask your society if you can get MOC points.

### CME Activities

Thousands of CME activities recognized by ABIM offer MOC points.

### Use UpToDate® for MOC Points

Use your personal UpToDate credentials.

Learn more ways to earn points, such as QI/PI activities, at [abim.org/points](http://abim.org/points)

## How much does it cost?

### Annual MOC Fee **\$220/year**

- For the first certificate you're maintaining
- Paid annually
- Includes LKA for that specialty
- 5% discount if paid prior to year it is due
- \$40 fee if paid in year after due

### Each Additional Certificate You Maintain **+ \$120/year**

- Paid annually and includes LKA for that discipline
- 5% discount if paid prior to year it is due
- \$40 fee if paid in year after due

### Traditional, 10-year MOC Exam **+ \$700**

- In addition to the annual MOC fee
- Taken in a test center and paid when you register
- Waived if the LKA is not developed in your specialty\*
